# Safety you can see!

Our advanced light engine technology has been on the forefront of automotive lighting for more than 100 years. As a **leading supplier** of lamps and lighting products to the automotive industry and aftermarket, we combine technical innovations with a genuine concern for **safety** and driving comfort. Our automotive lighting is today the choice of many consumers and major automobile manufacturers. Our mission is to introduce **innovative products** that constantly improve road safety and increase workshop productivity.

Our products are designed to perform efficiently and durably for continuous **customer satisfaction**. Many garages and workshops already appreciate our new range of professional LED work lights for their outstanding light output and robustness.

High-quality lighting really does make a difference.  
**That's safety you can see!**

## Original equipment quality

We are committed to producing **best-in-class products** and services in the Original Equipment Manufacturer (OEM) market and automotive aftermarket. Our products are manufactured from **high-quality materials** and tested

to the highest specifications to maximize **safety** and driving **comfort** of our customers.

- We are the **choice** of major car manufacturers

- Our lighting equips **one in two cars** in Europe and one in three in the world

- Manufacturing processes that **exceed** current industry **specifications**

## Philips anti-UV-quartz glass for optimal lighting performance

**All Philips quartz-glass lamps also offer a UV shield to protect your modern plastic optics from harmful UV rays.**

- **More powerful light**  
Quartz glass high resistance allows for increased pressure inside the lamp and thus generates more powerful light.

- **Better resistance**  
Philips quartz glass lamps (filament at 2 800°C and glass up to 800°C) are capable of withstanding severe thermal shocks.

- **Optimal protection against ultraviolet rays**  
All Philips quartz-glass lamps also offer a UV shield to protect your modern plastic optics from harmful UV rays.

# Adapter Rings

Almost every car model has a different type of socket in which halogen bulbs are secured. When replacing your halogen bulbs with LED lighting, you may need a connector ring to secure the LED bulbs inside the headlamp.

If another type of adapter ring is needed, you can find the concerning ring type mentioned in the Philips application list.

# Kits

## Spare and headlight restoration **kits** for cars and trucks

For increased **safety**, it is **recommended** by most European countries that all vehicles be equipped with a **homologated spare kit**. It will not only keep drivers in **compliance** with the law, but will also keep them **safer** as they will always be prepared to **replace** a burned-out lamp.

Our **Headlight restoration kit** renovates car, truck and two-wheeler lenses to like-new condition. It's our **cost-effective alternative** to complete headlight replacement.

# Understanding Philips ordering codes

All our automotive lighting products can be ordered using Philips Order Entry. With Philips Order Entry you can identify the lamp type, the product range and the packaging type.

## 1/ Lamp type

Every lamp type is designated by Philips with a unique number called lamp type.  
 • All 12V lamps start with 12 (for example: 12972 for H7 12V)  
 • All 24V lamps starting with 13 (for example: 13972 for H7 24V)

## 2/ Range type

Most lamp types are available in different product ranges. These are indicated by a color code, to indicate the availability of a lamp in a specific product range.

## Color code

	RacingVision GT200 Up to 200% brighter light	Range type <b>RGT</b>
	X-tremeVision Pro150 Up to 150% brighter light	Range type <b>XVP</b>
	VisionPlus Up to 60% more vision	Range type <b>VP</b>
	LongLife EcoVision Lifetime up to 1,500 hours	Range type <b>LLECO</b>
	WhiteVision ultra Sharp white look	Range type <b>WVU</b>
	Vision Up to 30% more vision	Range type <b>PR</b>
	Standard	Range type <b>STD</b>

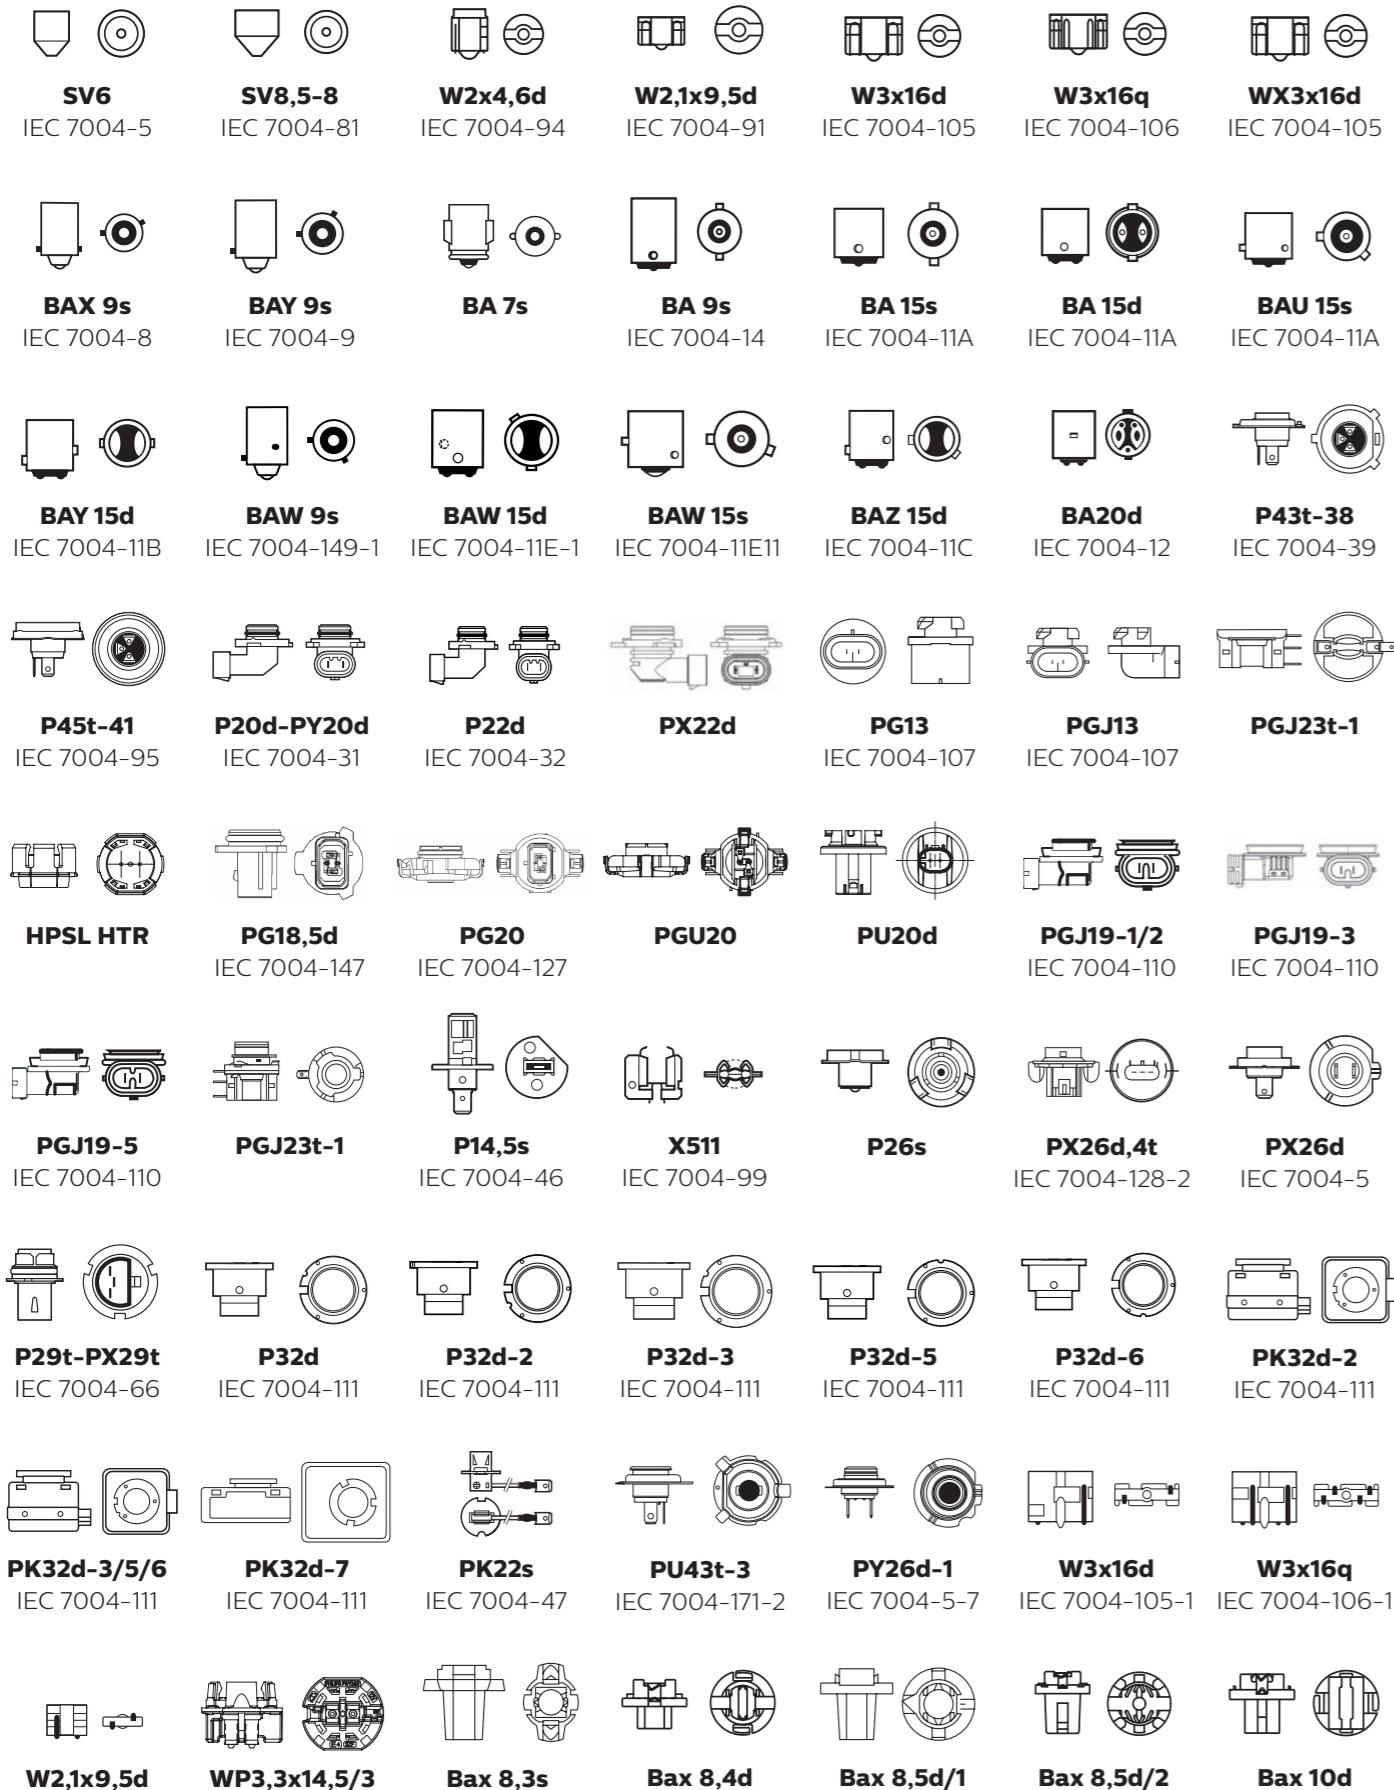

## 3/ Packaging type

<b>Commercial pack</b> Material carton Content <b>C1</b> 1 lamp Content <b>CP</b> 10 lamps Packaging type <b>C1/CP</b>	<b>Single blister</b> Material carton/plastic Content 1 lamp Packaging type <b>B1</b>	<b>Double blister</b> Material carton/plastic Content 2 lamps Packaging type <b>B2</b>
